

A plea to President Bush from the people of Australia:

Dear President Bush,
I implore you, on behalf of all Australians, when
the U.S global rampage reaches Australian shores,
please, spare our our lives!

We continue to enjoy your sitcoms and sweetened
refreshments and, as demonstrated by the Howard
government, we are more than willing to submit to
your awesome power.

We will surrender our resources and labour in a
peaceful, docile manner.

All we ask is that you mercifully spare our lives!

This is our pre-emptive surrender.
Signed, your humble Australian subject,
